Dec. 29, 1971

Roger Craig told me in a telephone conversation, not necessarily in this order.

He secured, through 2 Dal. County Deputies, copies of Robert Perrin's arrest record from Dal. Sheriff's office. Fingerprints, pictures, physical description, etc. Gave to Penn Jones who never did publish same & also lost or mis-placed them. Records proved Perrin had tattoos & a finger missing --- Robert Perrin's "body" discovered in New Orl. did not fit the description. Who was buried in Robert Perrin's grave?

Bayley showed me Penn's Nov. Report only

Arch Kimbrough, Dallas contractor, is CIA agent or informer. Prof. agent. He controls Mary Ferrell, Mary controls Penn & Bill Boxley. Arch is dying from cancer. Mary set Penn & Bill up with 2 women, they stayed in a Ft. Worth motel in 1970 Mary holds this over their heads to get what she wants from them. Penn was involved with a ~~queer~~ homo in 1969 & 1970. Mary knows this, too. Penn's money belongs to his wife, L.A., & Mary will tell L.A. if Penn doesn't co-operate. Mary has friend named

Mary lives at 4606 - Holland Dallas

Sue Fitch, supposed to be interested in assassination. Has asked Roger numerous times to agree to interview with Sue. Roger refused -- Mary said "How much?" Roger said $1,000 for 1 hr. Never heard from Mary about it since. Mary confused Jim Garrison by convincing him she had deciphered & de-coded phone numbers to names & vice-versa. Attempted to, & did, to some extent, throw Jim off the track Boxley owes Mary $800 she loaned him. She offered to loan Roger money & he declined -- would not be indebted to the likes of Mary Farrell. She has tried to get something on Roger to hold over his head but can't -- his client.

Boxley left CIA in 1955. An alcoholic. Still an informer like Oswald -- gets about $200 a month. Wants to work for Roger as investigator but Roger doesn't trust him. Thinks he wants to report on his operation to Mary. Any illegal step by one of his investigators could result in Roy losing his license. This is what they're after.
Roger wants to & has tried to meet

Mary's husband, Buck, but in 8 yrs, has not been able to. Roger thinks he may have seen Buck & will recognize him. Roger says the Farrells ~~are to~~ not ~~more~~ minute-men, as Penn says.

Mary called & told Roger a contract was out on Roger. He knew the head of Dallas mafia, R. D. Matthews. He went to the Ali Baba Club, which Matthews owned & found Matthews & his 3 top "Deputies", A. D. McComas (or Thomas) George McGann & Nick Cassio sitting at a table. He asked Matthews if a contract was out on him & Matthews said "Hell, no. If there was, I'd do it now. I own this club & nobody is here but us". (Mary told Roger the order was issued in N. O.) He called Mary & related his conv. w/ Matthews & she said "O, must have been bad info". If Roger had believed her, she could have taken credit for protecting him & saving him, putting him in her debt. George McGann found dead later in Lubbock. Matthews still runs the mafia show in Dallas.

Dick Sprague, editor of Computer Magazine showed Roger a picture (in New York) of Oswald coming down the bank in front of TSBD. Roger in picture. So is Hertz clock on top of bldg. Time 12:44 PM
Sprague will not make picture public.

Roger says I'm being "set-up" by Penn & Boxley. If I allow Bill to bring the documents to me, then I'll have to do anything they say. Probably they are falsified. If I had them in my possession, they could threaten me by ~~that~~ saying it just might leak out I had them & my life would be in danger. I shouldn't trust Boxley or Penn. Penn has been turned into an opportunist.
